

1. RISE AND SHINE, SUN!

Pterodactyl: Spreads its great wings and yawns toward the sky to start the day.

2. BREAKFAST OF CHAMPIONS

Brachiosaurus: Uses its long neck to reach the "green leaves" (fruit or cereal) and chews with energy.

3. BRIGHT TEETH

Tyrannosaurus Rex: Brushes its huge teeth carefully so they shine brighter than a volcano.

4. DRESSING MYSELF

Triceratops: Puts on its "armor" (clothes) by carefully passing its head between its horns.

5. OFF TO SCHOOL / TIME TO PLAY

Velociraptor: Runs fast with its backpack on toward its next adventure.

6.

LUNCHTIME

Stegosaurus: Recharges its solar plates by eating while sitting quietly to gain strength.

7. CLEANING UP TOYS

Ankylosaurus: Uses its club tail to gather the blocks and leave them all in their box.

8.

BUBBLE BATH

Spinosaurus: Dives into the water to clean its dorsal sail after a day of play.

9. PAJAMAS AND STORYTIME

Parasaurolophus: Puts on its soft pajamas and listens intently to a story before closing its eyes.

10. DEEP SLEEP

Diplodocus: Curls up in its nest, turns off the light, and dreams of green valleys.
